3. FMNP Instructors Recognized

Duval County Master Naturalist Program Receives Outstanding Environmental Achievement Award

Duval County Extension instructors Brad Burbaugh and Carol Wyninger were recently honored for their tireless efforts to connect people to Florida's unique natural areas.

Carol has been a FMNP instructor since 2002. Brad joined the team in 2007 and since then they have worked hard to promote a lasting conservation ethic among the citizens of Duval County.

Congratulations, Brad & Carol!

The City of Jacksonville Environmental Protection Board's awards were established in 1975 honor outstanding environmental accomplishments.

MORE INFO: Barbara.beyer@co.clay.fl.us or (904) 529-8058

Join the team at beautiful Camp Chowenaw Park to help lead guided programs for elementary schools!

Volunteer - Bear Aware Canvassing

WHERE: Marion, Lake, Volusia and Seminole Counties
MORE INFO: Claire Sunquist, FWC Volunteer Coordinator Claire.Sunquist@MyFWC.com, 352-732-1225

Bear Aware Canvassing Volunteers are a critical part of the future of black bears in Florida. Without public awareness and support, human-bear conflicts will continue to increase. By educating homeowners to take action to prevent problems, Bear Aware Canvassing Volunteers can help to reduce human-bear conflicts for the well-being of the public and black bears. Volunteers will speak to residents in communities where human/bear conflicts occur. Volunteers will work in small teams with the FWC Volunteer Coordinator to share information with neighborhood associations and individual homeowners in these regions.

FMNP Grads can get things done!

Instructor / Student Contract

- Betty Staugler, Florida Sea Grant Agent

We developed an Instructor/Student contract in Charlotte County in order to ensure students have a clear understanding of class expectations. We implemented it primarily because our evaluations indicated that students wanted more time in the field; however, in some classes, excessive student talking was causing delays that kept us in the classroom longer than we desired. The contract was seen as a way to highlight the need for balance. We also use the contract to illuminate other expectations (both student and instructor) key to successful adult learning. We read the contract the first day of class.

The first section of the contract provides students with an overview of how the class will unfold (lectures and videos, field trips and student synthesis). We also include items that address student's basic physiological needs for food, safety and water. This first section helps ensure that we as instructors don't forget to go over these core items which are critical first steps in the learning process, particularly for students new to the FMNP program.

The second section outlines expectations for instructors and students. Instructors (three in Charlotte) all agree to the expectations outlined in our section and we ask the students to in turn agree to the expectations in their section. We also encourage the students to take ownership of the contract by recommending changes (additions or deletions) as they deem appropriate.

The contract is working well in Charlotte County as it sets the tone for learning on day one. It also provides students and instructors with a mechanism to address common classroom distractions that may take away from an individual's learning experience.

* A PDF copy of Betty's contract can be found on the instructor page of the FMNP Website.
